PREMIUM
COOKWARE

WELCOME TO

At Rajlaxmi, we strive to be the most innovative and value driven manufacturer and exporter of a number of Stainless Steel Products of Household. We specialize in products for Copper Bottom Utensils, Cookware Range, Kitchenware Range, 20 Gauge Utensils, Food Carrier Range, Hotelware, Tableware etc.

'Rajlaxmi', 'Rajat' and 'Steelcraft' are highly reputed brands in India with an impressive image in the domestic market. It is the trust mark of the quality products being delivered to consumers and among a handful companies to achieve brand recognition. The brand incorporates the strength of quality products, right pricing, easy availability and ability to service exactly what the customer wants which makes Rajlaxmi the brand choice and a market leader.

We are vertically integrated organization, manufacturing right from the raw material stage to marketing the finished product. The best fabricators, who have been in the same business for generations, are making the molds and fabricating our products. We are able to assure premium quality, superior services and on schedule delivery.

PRODUCT, INNOVATION, QUALITY & SERVICE

WWW.RAJATBYRAJLAXMI.COM

STAINLESS STEEL CHARACTERISTICS

HEAT TRANSFER ABILITY

In Rajat Cookware with high quality stainless steel, carbon steel and aluminium base is used to improve heat transfer. This ensures an even cooking of food.

FLAVOUR PRESERVATION

Rajat stainless steel does not leach off any of its metallic properties into food, therefore, imparts no flavours. As it does not have a protective coating, there is no risk of this material coming off in the food.

APPEARANCE

With stainless steel, it is very easy to maintain the look. The mirrored finish cookware needs only a gentle rubbing or wiping to bring it back into a pristine condition. It never forgets that it has to make your kitchen look good too.

DURABILITY

The cookware does not rust, stain or dent easily and comes with a warranty of Life Time. This makes it easy to clean, dishwasher safe and can handle going into the refrigerator. It also means, that it will be the most reliable cooking partner you'll ever have!

RECYCLABLE

Stainless steel is completely recyclable. So if a pan does manage to get destroyed, it can be salvaged by other means making it favourable for the ones concerned about waste management.
